Continuation of Substance of Interview including description of the general nature of what was discussed: Mr. Perkowski was informed that a supplemental amendment would be required, since the amendment filed on 12/1/2003 did not utilize strikethroughs to show subject matter that was deleted in claim 31. It was also determined that claims 1, 20, 29, 50, and 54 would require correction of claim objections, and that a supplemental terminal disclaimer was necessary to obviate any double patenting rejections over U.S. Patent numbers 6,637,659 B2, 6,283,375, and 6,607,133, in order to place the application in condition for allowance.
